

**3rd Annual STeLI 'Excellence in Education'
Innovation Awards
Entry Form**

To promote excellence and innovation in education we invite clinical educators from London NHS Trusts to highlight their novel approaches to simulation-based and technology-enhanced postgraduate medical education undertaken between January 2010 and December 2010.

We will be particularly interested in innovations that promote patient safety and high-quality clinical care.

The deadline for entries is the **26th of November 2010**.

The winners will be presented with their award at the London Deanery's Simulation **Conference, 'Checklists, Guidelines and Protocols – embedding patient safety'**, on the **20th December**.

Title of project / training initiative:	
Name of lead award entrant:	
Job Title:	
Trust:	
Email address:	
Telephone number:	

Please provide details of any staff and/or academic institutions also involved in the delivery of this project.

Please provide a summary of your project (maximum of 300 words) outlining aims and objectives, methodology, results and how and why it is innovative. Any supporting evidence, such as relevant feedback or educational materials can also be submitted as appendices.

Please list any presentations and demonstrations (both national and international) given in support of this initiative:

Please list any abstracts and papers submitted in support of this initiative and where they have been published. Please ensure that copies are also submitted.

Please list any additional publicity or reports this initiative has generated, for example at a Trust level, at a national level or on television.

Submissions should be emailed to David Marston, the STeLI Project Officer – david.marston@londondeanery.ac.uk. Entries should include your name, Trust and full contact details.
